THE CONSERVATIVES WIN

CHICKEN MEN HEAR EXPERT

Many of our local poultrymen met in Matthews' Hall last Friday evening and heard a very concise and instructive talk on subjects relating to the keeping and feeding of poultry given by Mr. F. L. McNeil, feed specialist and poultry service man of Buckerfield's Ltd., Vancouver.

Mr. McNeil first touched on the proposed egg and poultry pool. He is very much in favor of it and was of the opinion that the men handling it this time were determined to see the project through to success. He asked all of those who could, to give it as much support as possible as there was bound to be strong opposition from the outside, though not nearly so much as the Washington poultrymen successfully fought. The B.C. poultrymen have another advantage, with successful co-operative associations both east and south of us to pattern their contract on.

He then touched on a good many subjects which included some of the diseases of chicks, their causes and methods of treating them, also the successful feeding of poultry from the baby chick stage to the hen past the stage of economic usefulness in the laying pen and that should be culled at once.

After describing the difference in the analysis of both grains and other feeding materials when bought, by name only he explained how the reputable feed merchants selected the necessary ingredients for a mash so as not to have the slightest variation at any time. A uniform well balanced ration, he said, was very essential to the successful keeping of poultry and cheap feeds were dear at any price since a hen had to consume larger quantities and would not lay as many eggs.

A number of questions were asked and answered in detail and in closing Mr. McNeil expressed himself as well pleased at the size of the gathering, especially when it was the first of its kind in the district.

Our genial friend, Bert Sansbury, proposed a hearty vote of thanks to Mr. McNeil, also to Mr. C. C. Mounce who was instrumental in engaging the hall and securing the services of the speaker.

It is the intention of the Mounce Feed Co. to hold meetings of this nature in the future and Mr. McNeil has promised to bring Prof. Lloyd of the U.B.C. over to speak at the next one. This should prove both interesting and instructive to all who have any interest in poultry.

PENDER ANNUAL SCHOOL MEETING

By Review Representative

PENDER ISLAND, July 19.—The annual school meeting was held on Saturday evening, July 19, at the Pender school. There was a fair attendance of ratepayers present to hear the reports of the past year's work and to endorse the estimates for the coming year. The estimates, P. C. Stebbings, gave all reports in a very business-like manner, the financial report showing a substantial surplus on hand. The trustees' report, given by Mrs. W. B. Johnston, showed a very successful year. Report was expressed at the resignation of P. C. Smith from the board, owing to absence from the district. The estimates for 1928-29 show a slight increase over last year, and include increases in the teachers' salaries. The board, and everyone in general, are gratified to know that the services of Miss McIntyre and Miss Graham are to continue, as their work has been very highly commended upon.

In the election of officers E. H. Henson, auditor, was re-elected; P. G. Stebbings re-elected secretary for another year; and Wm. Falconer replaced P. C. Smith for a term of two years. There were no other nominations. The meeting adjourned at 9 p.m.

FAREWELL FOR SIDNEY COUPLE

A very pleasant time was spent last Saturday evening when Miss Margaret Cochran entertained a number of friends in honor of Mr. and Mrs. S. Parker, who are leaving soon to make their home in Luseland, Sask.

The sit down supper after the dancing was held upstairs, the tables being very prettily decorated with flowers and candles. Mrs. Bodkin, Mrs. Kirkpatrick and Mr. and Mrs. G. A. Cochran helping to serve the refreshments. Those present were: Mr. and Mrs. G. A. Cochran, Mr. and Mrs. P. A. Bodkin, Mr. and Mrs. S. Parker, Mr. and Mrs. J. Mitchell, Mr. and Mrs. H. Horth, Mrs. Williamson, Mr. C. C. Cochran, Mr. and Mrs. W. Love, Miss Iris Goddard, Miss Sunny Pon, Miss Eleanor Parfitt, Miss Patty Simister, Miss Blanche May, Miss Jessie Stott, Miss Joan Hutchinson, Miss Helen Smith, Miss Dolly Payne, Miss Margaret Cochran, Messrs. INSTITUTE MEETING

FULFORD HARBOUR, July 19.—The regular monthly meeting of the Women's Institute was held in the Institute Hall, Fulford, on Thursday afternoon, July 19, 1928. The meeting was very well attended, 28 being present. Capt. Ira St. Clair of Victoria, the government health lecturer, gave a very interesting address on "What shall we do with our boys," which was greatly appreciated. A very hearty vote of thanks was tendered the speaker and a welcome extended to Mrs. St. Clair, who accompanied her husband, also Mrs. King and daughter, who are members of the Women's Institute in Southampton. Mrs. P. C. Mollet were hostesses for the tea which was served at the conclusion of the address, the usual business and routine following.

Something happened yesterday! The voters of B.C. decided it was time for a change of government in such an emphatic manner that even the Conservatives themselves were surprised at the returns. Think of Vancouver and Victoria going solid Conservative! Premier MacLean and Hon. Donaghy rolled up big votes in Victoria and Vancouver but fell short by quite a margin of being elected. At the time of going to press the standing of the two parties said: Conservatives 25, Liberals 7, with Conservatives leading in most other constituencies. In our own constituency Col. Peck came through a big winner.

CARD OF THANKS

Having been elected I now regard myself as representing all parties and every section of the people and will always be ready to serve my constituents in any way that I can.

N.S. ANNUAL SCHOOL MTC.

The annual school meeting was held in the North Saanich School on Saturday, July 14th, at 7 p.m. Mr. R. N. MacAulay occupied the chair. A report of the progress for the year and a financial statement was given by the secretary, Mr. Calvert. The question of painting the building and wiring for electric light was discussed and passed. Mr. J. A. Nunn was elected trustee and Mr. R. N. MacAulay auditor, both by acclamation. A very satisfactory report of conditions in the school was presented by the principal and several points came up for discussion. It was pointed out that more attention should be given to bible history and the meeting agreed that the use of the bible or a bible history in the school should be left to the discretion of the principal. The excellent condition of the grounds and the general activity of the school in sports was the subject of favorable comment from the meeting. At the close of the meeting a hearty vote of thanks was passed on the work of the trustees during the past year and a special vote to Mr. A. McDonald, who retired from the board after having given more than 20 years loyal service to the school district. The trustee for the year 1928-29 are Mrs. George Clark and Messrs. Calvert and Nunn.

U. C. PICNIC AT CURLEW PARK

The St. Paul's United Church held their annual Sunday School picnic last Saturday afternoon, July 14th, at Curlew Park at Elk Lake. The cars left Wesley Hall, Sidney, about 1.30 taking the children and teachers to their destination.

Swimming was enjoyed by nearly everyone during some part of the afternoon while the races which were held on the new track caused much exciting competition. The most interesting event of the afternoon was a baseball game in which nearly everyone, old and young, took some part, supper being the only thing that would stop the playing. The supper, which was laid out on tables under the trees, was thoroughly enjoyed by all the grown-ups as well as the children. The tired and happy party left the park about 6.30 for their distant homes.

The Sidney baseball team plan going over to Roche Harbor on the 29th for a return game. Come along!

Over \$100 was raised by the united efforts of the Girl Guides, Brownies, Scouts and Cubs associations last Thursday afternoon when Mrs. Halseth loaned the grounds at Shore Acres for a garden party. The affair proved a success in every way and the day was ideal for such an outing.

Decorated stalls proved very popular during the afternoon. The ice cream and candy stall, in charge of Miss Lander, was always surrounded by a crowd of eager purchasers. The novelty stall, which contained a wide selection of articles, was well looked after by Mrs. King, and Mrs. Hollands looked after the fish pond, which proved an attractive feature for the younger guests.

Afternoon tea, under the convalescence of Mrs. Le Vack, was served at tea tables set attractively about the lawn. A number of the Brownies assisted with the serving.

The members of the Girl Guides presented a very pretty pageant, each girl in costume representing one of the nine provinces of Canada. Quebec was represented by Dulcie Brethour; Nova Scotia by Louise Charlebois; Ontario by Mavis Goddard; British Columbia by Mary Crickshanks; New Brunswick by Genevieve Ricketts; Alberta by Georgette Lennartz; Saskatchewan by Bella Huxtable; Manitoba by Barbara Hutchinson; Prince Edward Island by Mary McIntosh, and the two heralds were Grace King and Gwen Hollands. Forming a graceful tableau, the pageant ended with the singing of "O Canada," "The Maple Leaf" and "Three Cheers for the Red, White and Blue."

Mrs. J. Gilman guessed the correct time, 23 1/2 hours, that it took to make the beautiful rug made by Mavis Goddard, a Guide. Mrs. Stanley Brethour received the lovely fruit cake donated by Mrs. Rankin for guessing the nearest to its correct weight.

During the afternoon a tennis tournament was conducted by Miss E. Gwynne, and many players availed themselves of the opportunity of playing. Some good games, keenly contested, were held, the results being as follows:

Miss Woodmass and J. Anderson, 19 points; Miss Gwynne and Mr. Catlett, 18 points; Miss V. Goddard and M. Roehfort, 17 points; Miss V. Hinton and T. Hughes, 16 points; Miss L. Goddard and D. Fraser, 16 points; Miss M. Payne and H. Payne, 14 points; Miss Hutchinson and H. Bodkin, 13 points; Mrs. Hutchinson and C. Parker, 12 points; Miss Stott and Miss Greenwood, 9 points.

Junior—Mary Crouch and Horace Stralath, 12 points; Dulcie Brethour and Frank Holdridge, 11 points; Frances Salmon and J. Buck, 9 points; Mavis Goddard and V. Graham, 5 points.

The excellent proceeds will help considerably the fund for the purpose of building a new hall on the corner of Third Street and Bazan Avenue donated by Mr. Goddard.

CAR ALMOST OVERTURNED

By Review Representative

FULFORD HARBOUR, July 19.—On Monday Mr. Frank Crofton had a marvelous escape, which might have been a very serious accident, when his car backed over the wheelbarrow at Burgoyne Bay Wharf. Luckily the timely assistance from the captain of the Island Princess, which had pulled away from the wharf, noticing the perilous condition of the car, pulled in closer and placed the derrick under it and pulled it up. At the time of the accident Mr. and Mrs. L. Tolson of Victoria, and Mrs. Brown and baby of North Salt Spring, also Mr. Crofton, were occupants. Fortunately no one was injured.

THOSE WANDERING COWS!

To the Editor,
"Review," Sidney, B.C.
Sir:—It is my intention to keep roaming stock off our property. I shall see a lawyer who is thoroughly conversant with the rights of property owners and be guided by what he says.

If it is permissible to poison or to shoot, I expect I shall do so; tho' God knows it isn't the cows that ought to be so treated.

The mess in our place when we got up this morning was enough to drive anybody crazy. I suppose I am as hard-boiled as here and there one, but I unhesitatingly say that I couldn't have stock running out, and presume to show my face in the district.

The famous Dutchman Sluice Gardens, eight miles from Sidney, draw thousands of visitors every tourist season.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS
Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre east of the Coast Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to the value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin, "How to Pre-empt Land."

PURCHASE
Applications are received for purchase of vacant and unreserved Crown lands, not being timber land, for agricultural purposes; minimum price of first-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, and 8,000 feet per acre west of that may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES
Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and the land has been surveyed.

LEASES
For grazing and industrial purpose areas not exceeding 640 acres may be leased by any one person or company.

GRAZING
Under the Grazing Act the Province is divided into grazing districts, and the range administered under the Grazing Commissioner. Annual grazing permits are issued, based on numbers ranged, priority being given to established owners. Stockowners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers up to ten head.

Moisture is the worst foe of telephone circuits

The worst enemy of telephone lines is moisture. The wires in a cable, over which conversation travels, are protected by a lead sheath. If the smallest hole develops in the sheath, moisture enters, the insulation becomes soaked and telephone trouble is the result.

During a rain storm at North Vancouver on July 4, 80 telephones were put out of order because moisture had penetrated the cables. Our men could not prevent this trouble, but they restored service within 24 hours.

Going up!

AFTER all, there's no place like British Columbia in which to work and live and play! Here, there are no long "off seasons" to cut down a man's working time. Our temperate climate keeps a man fit... enables him to produce more... earn more.

The producers' average weekly wage in British Columbia is \$28.39... 49% higher than the rest of Canada. In 1926 seventeen industries increased weekly wages by \$12.95! Actually in ten years our annual payroll has grown from 78 million dollars to 175 million dollars... the greatest advance by far of any Province during that period. This, of course, does not include agricultural workers, professionals, clerks and others. British Columbia's gross payroll is estimated at 210 million dollars!

Life is more enjoyable... we have more time to enjoy the year-round pleasures and recreations at our doors, while our general standard of living is very much higher.

Taxation during the last four years has been reduced by two and a half million dollars... concrete proof of our province's sound financial condition.

Construction, that outward evidence of the faith we have in our province, has played a large part in the wage situation. In ten years British Columbia's construction activity has gone up ten times. In 1916 it involved only \$2,800,000... for 10 months in 1927 it amounted to \$27,277,000!

This activity has an immediate effect on current conditions. Cash funds are disbursed for materials, employment is good... wages fairly steady... money in circulation.

It increases the capital investment in our Province. And there can be no surer indication of future progress than when producing machinery increases... a sign of growing markets... a sign that British Columbia products are winning a place in the markets of the world.

Read these announcements and understand your province's progress... clip them out and send them to friends. If you desire extra copies of these announcements a note to this newspaper will bring them. Advertise your Province!

Here and There

(19) Quebec.—Quebec is taking advantage of the Federal legislation of last year known as the Canadian Farm Loan Act, which provides for loans to pioneers whereby the Federal Government provides 90% of the money, the province 5%, and the borrower himself the remaining 5%.

This years largest inflow of settlers destined for the west recently arrived on two of the liners of the Canadian Pacific fleet. There were 1082 on the Montclare and 800 on the Melita, the majority being of British birth, thereby establishing a record for any individual ship docking at the Maritime Province ports this year.

A recent revision of the Customs regulations now enables tourists to bring their sporting equipment or cameras into Canada without leaving a deposit on account of their dutiable value with the Canadian Customs officers at the border. At the present time the change in the regulations will effect particularly the Pacific Coast, where golf and spring sports are in full swing.

Vancouver.—Over 100 miles of trackage serving the ports of the Vancouver district will shortly have been laid by the Canadian Pacific Railway, according to a statement issued by the general superintendent of the district. The trackage is designed to take care of a steady and normal growth in trade through Vancouver and also to handle expansion in westward grain movement which this year has reached the record of 53,000,000 bushels.

John Walter, co-proprietor of the London Times with Major the Hon. J. J. Astor, arrived in Montreal lately where he addressed a gathering under the auspices of the National Council of Education. Mr. Walter is covering the Dominion over Canadian Pacific Railway lines and will make addresses in most of the larger cities. He is the fifth member of the family, being a direct descendant of the famous John Walter, to be guide of this newspaper since 1785.

On a long trip from Ontario to Brussels, Belgium, forty muskrats lately left Canada aboard the C. P. S. S. Marburn bound for Antwerp. The final destination of these animals is a farm near Brussels where they will form the nucleus of a muskrat farm. While handled by the Canadian Pacific Express Company during the entire voyage, the animals were fed two ounces of oats and four ounces of carrots daily with water once every two days.

Saskatoon.—"I believe I have found a wheat which, when further developed, will be greatly rust-resistant," said Dr. Seager Wheeler, several times winner of the International wheat award. He went on to explain that although he was quite sure that this new type which he developed from the Klota strain would protect crops in the province from rust damage, he did not think that the wheat would be absolutely free from rust under all conditions. However, he considered from the results of his experiments that even under the worst conditions, such as those of 1927, this wheat would never materially be damaged.

Canada's Market — The Empire

ROLL down the map of the world. Follow the British Empire red through the continents and across the seas. There you see beckoning markets for Canada—where fewer trade restrictions intervene, where British tradition is appreciated, where Canada is known. There we can sell. There we can also buy.

Canada is buying more Empire goods than ever before—things we cannot grow or make—raw materials for our factories. Since 1922 Canada's imports from Empire countries have increased 67 per cent. Last year we bought Empire goods to the value of \$250,000,000.

And what is Canada selling the Empire? Last year we shipped \$500,000,000 worth of our products to other British lands, an increase of 44.3 per cent. in six years.

The various parts of the Empire want more Canadian goods. A demand exists among them for Canadian manufactures, or for the products of Canadian lands or waters. But we must see that our exports are maintained at a rigid standard, that they are packed as consumers desire, and that our prices are right.

To encourage this growing Empire trade, eleven of Canada's twenty-four Trade Commissioners abroad, are working in Empire centres. They are familiar with the demands of the people among whom they live. Their services and the information they gather are at the command of any Canadian producer or exporter. To get into touch with Trade Commissioners, write the Commercial Intelligence Service, Department of Trade and Commerce, Ottawa.

When you buy Empire goods, you do a part in making possible greater Canadian exports to these sister countries. Where we sell, we must also buy.

THE DEPARTMENT OF TRADE AND COMMERCE OTTAWA

F. C. T. O'HARA, Deputy Minister

Hon. JAMES MALCOLM, Minister

The Empire Opportunity in Manufactured Goods

Of 38 groups of manufactured goods Canada sells the Empire to the total of \$178,000,000. It is to be remembered that the Empire imports from all countries these goods to the amount of \$2,371,800,000. The British Empire presents a tremendous opportunity for the development of export on these commodities.

With concrete now up as far as
the first bedroom windows and
steel up to the fourth, the Royal
York C. P. R. monster hotel in
Toronto is well up to schedule and
is expected to be completed in time
for the opening next May, notwith-
standing the short straits of the
steel and building trades.

W. M. Van Valkenburg, president
of the Regina Board of Trade, says
that his city and province are out
to capture industries. That is one
reason for his visit to Montreal and
the Eastern States. He figures
that the mineral resources of the
province should provide the basis
of a number of industries, as 42
per cent of the provincial area lies
within the pre-Cambrian shield.

Inauguration of the new New
York-Yarmouth, Nova Scotia, pas-
senger ship service recently repre-
sented the first entrance of a ves-
sel from New York into Yarmouth
harbor for the past 20 years. This
was the S.S. Evangeline, of the
Eastern Steamship Line, carrying
150 passengers. She is of 5,000
tons and her sailing connects with
the Dominion Atlantic Railway and
so enables tourists to reach Nova
Scotia sea and holiday resorts.

This summer will witness a great
deal of activity on the part of the
grain companies as well as the
Wheat Pool in the construction of
elevators at country points in Al-
berta to take care of the larger
harvests which are expected. An-
other company which has just an-
nounced its intention to enter on
a construction program is the Gil-
lespie Grain Company. According
to John Gillespie, president, the
firm plans to erect six new eleva-
tors each with a capacity of 40,000
bushels.

Musicians under the leadership
of Flight Lieutenant John A.
Amers, forming the band of the
Royal Air Force, Britain's young-
est military band, banded recently
at Quebec from Canadian Pacific
liner Montreal, en route to Can-
ada from coast to coast, as did
the band of the Coldstream Guards
last year. This aggregation was
formed in June, 1920, and since
then has fulfilled engagements all
over the British Isles. The band
will play in all the principal cen-
tres, military centres and garrison
towns of Canada during their tour
here.

"First call for dinner!" "Last
call for dinner!" The old memo-
rable warning to the hungry trav-
eller is a thing of the past on the
Trans-Canada Limited, C. P. R.
trans-continental crack train from
Montreal to Vancouver. To-day a
natty attired waiter in white coat
and apron with a smart black bow
tie walks through the cars ringing
"chimes" on a dulcimer, an appeal
at once more pleasant to the ear
and more likely to attract attention
than the former method. In time,
there is no doubt, the idea will be
adopted on all dining car trains of
the railway.

Advertised to make the trip from
Montreal to London in nine days,
the Canadian Pacific freight ship
Beaverlodge actually completed the
run in eight days and twenty hours,
making record time for a freight
vessel between the two ports. This
ship is one of the five "Beaver"
ships making up the new fast
freight service between the
Canadian Pacific. They have re-
sulted in a saving of 10,000 tons of
freight space. The service is be-
tween Montreal and London,
and there is a calling from the
Canadian Pacific. The vessels are
the fastest in the world on the
London route.

Showing Canada her Opportunity in World Trade

Another Striking Advertisement by the Trade and Commerce Department, Ottawa

The various striking advertisements of the Trade and Commerce Department at Ottawa which have appeared in Canadian newspapers from time to time are calculated to create an "export trade consciousness" throughout the Dominion.

It was decided last year by the Honourable James Macdonald, Minister of the Department in question, that Canadians should become more intimately acquainted with business opportunities outside their own country. In order to accomplish this, the campaign of publicity was embarked upon.

Canada's external trade has grown in such proportions as probably few Canadians

HON. JAMES MACDONALD

realize. For instance, in the last fiscal year, ended March 31st, the Dominion's total exports were valued at more than a billion and a quarter dollars, or to be exact \$1,250,456,297. This represents an export trade of more than \$180 for every man, woman and child in Canada. At the beginning of the present century Canada's export trade amounted to less than 200 million dollars.

Another method of gauging Canada's export trade is found in the fact that last year the country's exports of manufactured products alone amounted to about the same as her total production of manufactured

products in 1900. In other words, Canada is exporting as much in manufactured articles to-day as the total output of every factory in the Dominion twenty-eight years ago. These few figures may give readers some comprehension of the immense increase in export business.

Most public men and business men, no matter what their politics may be, agree that export trade is possibly the most valuable asset the Dominion can have. Canada's natural resources are so varied and so rich that it would be impossible for Canadians to consume them. Take wheat for example; it is manifestly impossible for 9,000,000 people to consume 400,000,000 bushels of wheat annually. Canada's future prosperity therefore is bound up in seeking markets abroad for her surplus production.

When Canadian business men seek to sell their products in other lands, they cannot hope to control prices. They have to meet competition from thousands of other business men and producers living in other countries. They are faced with fierce world competition in maintaining their hold on export business. To maintain this trade of a billion and a quarter dollars a year and to increase it, Canadians must become conversant with proper methods of method known to business. They must learn how to pack their goods in the manner desired by the foreign buyer, they must learn how to keep contract dates, how to ship their goods by the most economical and direct routes. And perhaps most important of all Canadian goods must always be kept up to the standard of the sample submitted.

The Department of Trade and Commerce, at Ottawa is doing everything in its power to further this export trade. Years ago a Commercial Intelligence Service was established, and trained trade commissioners sent to the world's trade centres. In fact, Canada had the first trade-commissioners abroad, thus inaugurating a system which has been widely copied. Today this country has 24 trained trade commissioners in strategic business centres. More men are now in training to go to other places. The government has by subsidy, and other means, obtained first-class shipping facilities to these business centres. The trade commissioners are constantly on the alert, securing export opportunities for the selling of Canadian products. Whenever they learn that there is a chance of a Canadian order being placed, they immediately communicate with the Commercial Intelligence Service at Ottawa, giving all information they possibly can. This information in the possession of the service at Ottawa is at the disposal of any Canadian producer or manufacturer. This system, the result of some years' experience, is thoroughly organized and working smoothly. To-day the Canadian manufacturer or producer can find out with little trouble, and no expense, if his products can be profitably marketed in almost any part of the world. So encouraging have results been from this system that it has been adopted by Canada, and so well have Canadian goods been received abroad, that it is fairly prophesied that within a decade Canada's exports will amount to double the present figure. Hon. Mr. Macdonald, as the responsible head of this department, believes in keeping Canadians fully informed as to opportunities abroad. To do this he is reaching the people through newspapers, magazines and trade journals.

FINE EXHIBITS AT FIRST SHOW

The North Saanich Horticultural Society held its first flower show on Wednesday of last week at the Agricultural Hall, Saanichton. The show was formally opened by Rev. H. B. Allen, president of the Vancouver Island Horticultural Society, who gave a short and suitable address, following a few introductory remarks by Mr. L. E. Taylor, the president of the society.

The hall presented a very pleasing appearance, artistically arranged with the decorated tables down the centre, exhibits on either side and the non-competitive display on the outside. The stage, ornamented with a profusion of flowers, displayed the trophies, namely, silver vases, presented by the Sidney Bakery, McKillican Supply Co., and Sidney Pharmacy, and a silver flower basket, presented by Mr. L. E. Taylor. All the decorated tables were effective. The first table was carried out in a scheme of black and gold. Orange and yellow Iceland poppies in a black bowl and yellow candles in black candlesticks, provided a striking combination. The third table was very artistic with vases of mauve and pink sweet peas, mauve and pink tulle adding to the dainty effect. The last table, No. 8, was carried out in patriotic colors—red, white and blue flowers in a centre bowl, with maple leaves and little flags accentuating the effect.

The exhibits were wonderfully good. Mr. Sheppard, of Victoria, staged an exhibition of beautiful flowers. Three large delphinium spikes in the centre of the table, and pink spirea in front, set off the display. Mr. V. E. L. Goddard's wonderful collection of one hundred different varieties of pressed flowers extended down one side of the large hall, this being only one-half of his collection.

Mr. L. E. Taylor won the Canadian Horticultural Council Diploma for the most outstanding exhibit in the show, consisting of eight varieties of lilies grown from seed.

Music was provided during the afternoon, delicious tea was served in the dining-room, and the gallery was utilized for ice cream and candy.

During the evening the prizes were presented by Mrs. L. E. Taylor. The decorated tables, eight in number, were judged by popular vote, the results being as follows: First prize, table No. 3, Mrs. Philips, Victoria; second prize, table No. 1, Mrs. C. E. Wilson, Victoria; third in order of voting was table No. 8, by a returned soldier. The grand aggregate prize, presented by the president of the association to the exhibitor scoring most points in the show, was presented to Mrs. R. Harrison. Mr. Angus McKay scored an equal number of points, but retired in favor of a local exhibitor.

The show was brought to a close by an auction sale of flowers, fruit and cakes.

Great credit is due the executive committee, and to those who so kindly assisted them in making this, the first flower show of the society, a success.

CHOIR HONORS MISS HAMBLEY

A very pleasant time was spent last Thursday evening when Mr. Lowe, the leader of the United Church choir, gave a beach party in honor of Miss Florence Hambley, who has been a very active and popular member for the last three years and has now left to make her home in Bellingham. The evening was spent in games and swimming after which Mrs. Lowe served refreshments consisting of "hot dogs," buns, cake and coffee. A very pleasing feature occurred when Mr. Lees, expressing the good wishes of everyone, presented Miss Hambley with a pretty ivory clock as a token of their appreciation and remembrance.

After the refreshments everyone made their way to the Lowe house where a community sing was very heartily indulged in, bringing a very pleasant evening to a close.

Those present were: Mr. and Mrs. Lowe, Mr. and Mrs. Cowell, Mr. Blackburn, Mr. Grundon, Mrs. Jackson, Florence Hambley, Mirna Lane, Ivy Hill, Winnie Thornley, Kathleen Watts, Kathleen Lowe, William Owens, Ronald Lowe, John Rowton, Reg. Beswick and Mr. Lees.
